Web Developer • Front End Developer

PERSONAL SUMMARY

An accomplished individual with a strong background in HTML and CSS. I strongly believe in the power of the Internet, and I have an intense desire to learn how to improve the webs core functionality, and to also be involved in its future development. I have a good understand of programming, can come up with innovative ideas and possess superb communication skills. Right now I am looking for a suitable position as Web Developer/ Front End Developer with a company that offers a unique work environment within which I can thrive and grow along with the company.
